Full job description

Your new company

Our client is a leading engineering consultancy with a range of projects for major clients in the WA urban development sector. From planning to delivery, the team has managed several medium-large scale projects including whole community developments.

Your new role

You will get the opportunity to work with and learn from industry leaders, gaining exposure on a diverse portfolio of projects including residential and commercial land development, civil infrastructure, and urban development.

Your new role will include but not limited to:

- Technical design and documentation of projects
- Liaise with local authorities, clients, contractors, other consultants, and internal stakeholders.
- Site inspections - including inspecting civil works to ensure compliance with project documentation and specifications for work undertaken by contractors.

Work Authorisation

**AUSTRALIAN CITIZEN /
PERMANENT RESIDENT**

- Embracing a strong digital work environment and delivery culture
- Working in collaboration with other design disciplines to ensure the integrity of the overall design

What you'll need to succeed

This full-time position is perfect for a candidate who is looking for the next step in their career and wants to work in a dynamic and collaborative team environment. Your previous experience in a similar role within this area will lead to your success, as will:

- Project experience in areas such as land development, master planned subdivision and civil infrastructure.
- Working knowledge of AutoCAD and 12D will be highly regarded
- Demonstrated self-management; ability to work autonomously and take ownership of outcomes
- Ability to liaise with engineers to establish design requirements

What you'll get in return

In return for your dedication and hard work you'll be rewarded with:

- Excellent training and personalised career growth
- A creative, innovative, and collaborative environment with modern tools and technology
- Flexible work arrangements with an emphasis on work life integration

What you need to do now

If you're passionate about this role, click 'apply now' or for more information and a confidential discussion or to find out about other opportunities in Engineering contact Malcom Tshuma at Hays on 0 8 9254 4565 or email Malcom.tshuma@hays.com.au At Hays, we value diversity and are passionate about placing people in a role where they can flourish and succeed. We actively encourage people from diverse backgrounds to apply.
